Green bottom 3 1/4" Diameter 3/4" Deep

P/N: TC102

White bottom 2 1/2" Diameter 5/8" Deep

Probe Set

These probes can be used for a wide variety of purposes. Each features a different tip: straight, curved, right angle and angled.

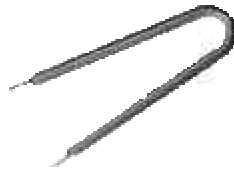

Set of four 7" double-ended tools.

P/N: P324

IC Extractor

Use this steel spring tool to work on all IC devices from 8 pin to 24 pin. One piece construction.

P/N: IC23

Nylon Cable Ties

Molded of sturdy 6/6 nylon. One piece construction. Remains continuously serviceable to 185° F. Natural nylon color. 4" in length with a tensile strength of 18 lbs. 100 per bag.

P/N: T18R

Push-Pull Tool

A versatile tool designed to manipulate springs and belts in hard-to-reach areas. This double-ended tool has one end for pulling and a notched end for pushing. 8" in length.

P/N: T100

Tape

Cold Shrink Fusion Tape forms a tough, uniform, watertight skin. Ideal for temporary repair or long term, permanent applications! Cold Shrink Tape forms a homogenous mass with no layers. It does not transfer adhesive and can easily be applied to a wide range of sizes, shapes and materials. Effective stretch length is twice the length. Available in black. Each roll is 3/4" x 30'.

Has excellent:

- Electrical Properties
- Water Resistance
- Ozone Resistance
- Corrosion Resistance at temperatures ranging from -40°C to 100°C continuous, and to 130°C for short periods.

For use in wrapping applications such as:

- Electrical cables - slices and terminators
- Corrosion Protection
- Moisture Proofing

P/N: 2515-30

Vinyl Plastic Electrical Tape

66 foot rolls x 3/4" wide black vinyl tape with a dielectric strength of 12,000 Volts and tensile strength of 15 lbs. per inch. Thickness of 7-9mils. Flexible stretch and waterproof. Will resist oil, gasoline, salt water, alkalis, sunlight, etc. UL approved.

P/N: 656

Hex Key Set

This eight piece set comes in a sealable clear plastic pouch.

Contains one each of the following sizes:

- .71mm
- .90mm
- 1.27mm
- 1.5mm
- 1.6mm
- 2.0mm
- 2.4mm
- 3.0mm

P/N: HK8

Tweezers

These high-quality tweezers can be used in numerous ways. Use them to rescue dropped parts, or as an aid to holding and positioning small parts.

Fine Point Tweezer

Finely pointed tips for accurately positioning small parts. Great all-purpose tool. Comes in a handy pouch. 4.75" long.

P/N: T290

"Wildear" Tweezer

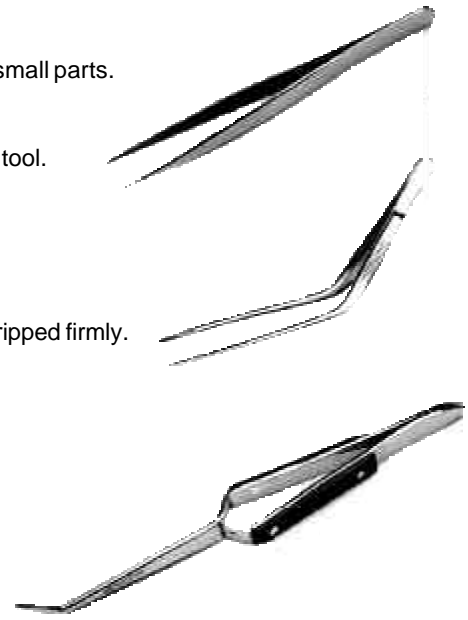

Angled tweezer for hard-to-reach areas. Serrated teeth allow parts to be gripped firmly. 5" long.

P/N: T282

Soldering Tweezer

Self-locking, curved tip tweezer. Heat resistant fiber grip handle. Exceptionally strong spring action. 6.5" long.

P/N: T297

Wire Cutting Scissors

Angled wire cutting scissors insure even cutting of medium and small gauge wire. One serrated and one smooth blade. 4.75" long.

P/N: S264

Hemostats

Multi-purpose Hemostats are a versatile tool with extraordinary holding qualities. When used to hold wires while soldering, the Hemostats will act as a heat sink. They can also be used to retrieve small parts from hard-to-reach places. Locking, box-joint construction with serrated tips. Stainless steel, with a high quality polished finish.

3.5" - Straight Tip

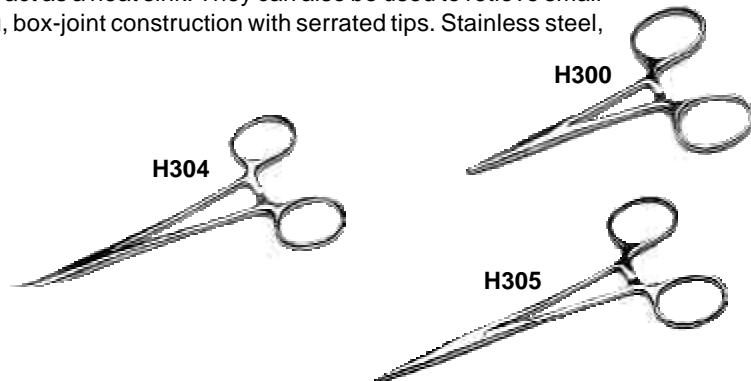

P/N: H300

5" - Curved Tip

P/N: H304

5" - Straight Tip

P/N: H305

Tool Case

This fitted vinyl tool case with zipper provides a convenient way to store and carry tools. The case has thirteen elasticized holders and a clear, snap-shut pouch. (Tools sold separately.)

P/N: TC100

Fuse Puller & Insertion Tool

This durable plastic tool can be used for removal of all 5mm and 1/4" diameter glass fuses. The second end allows the user to remove and insert blade-type fuses.

P/N: FP100
