

## Lubricants

### Tuner Grease

Designed for use in fine mechanical linkage situations.

- "Aero" by Lubriplate
- Temp. -60°F to 360°F
- Low viscosity
- 1 oz. net weight

P/N: 555

### Molylube Grease

Designed for use in any mechanical linkage situation.

- Good temperature range: -20°F to 485°F
- Black in color
- High lubricating performance
- Great for VCRs and other electronic machines
- 1 oz. net weight

P/N: 560

### High Heat Silicone Grease

Designed for bearings in electric motors.

- High heat temperature applications
- Stable temperature range: -40°F to 400°F
- Ideal for video tape machines
- 1 oz. net weight

P/N: 511

### Synthetic Hydrocarbon Grease

- Lithium soap jellied grease of medium viscosity, stabilized against oxidation
- Wide temperature range: -40°F to 225°F
- Safe for ester vulnerable plastics & neoprene
- .25 oz. net weight

P/N: 608

## Cleaners

### PRB Line® Non-Flammable Flux Remover

This proprietary, custom-blended CFC-free flux remover is truly unique. PRB Line® Non-Flammable Flux Remover is meticulously formulated to meet the most rigid industrial electronics assembly and rework specifications. Its effective, gentle cleaning action has been proven to be ideal for cleaning all types of electronic circuit board assemblies. The superior wetting action removes all types of R, RMA, synthetic and RA fluxes, ionic soils, silicones, grease and oil films.

- Non-flammable
- Non-conductive
- Leaves **NO** residue
- Fast evaporator at room temp.
- 2 oz. or 6 oz. Non-aerosol

P/N: C80303 6 oz.

P/N: 822 2 oz.

### PRB Line® Rubber Revitalizer

Use this product on rubber parts such as pressure rollers, idler wheels, windshield wipers, golf club handles, tennis racket handles - you name it!

- Prolongs life of rubber parts
- Revitalizes rubber by removing buildup
- Restores the "gripping" surface
- Cleans and makes surfaces like new
- Available in 2 sizes and 2 types of packaging

P/N: MS21 1 oz.

P/N: RCR21 1 oz. clamshell

Cannot Be Shipped Via UPS Air

### PRB Line® Video Tape & Head Cleaner

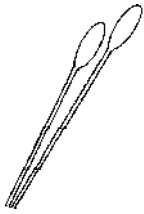

Specially formulated to improve performance and extend life of audio and video heads.

- Environmentally friendly
- No CFCs & no 1,1,1-Trichloroethane
- No added silicones
- Leaves no residue
- Safe for use on most plastics
- Non-conductive
- 6 oz. Non-aerosol ( Non-Flammable)

P/N: 833

## Chemical Applicators

### Cotton Swabs

- Single end cotton swabs
- Extra long - 6" in length
- Available in packs of 100

P/N: **CS100**

### Foam Swabs

- High quality cellular-foam swabs
- Will hold up in most solvents and cleaners
- Extra long - 6" in length
- Available in packs of 50

P/N: **FS50**

### Foam Over Cotton Swabs

100% Urethane foam heads with 100 PPI porosity over U.S.P. pharmaceutical grade purified cotton for best absorption. Bonded securely to a 6" polypropylene shaft.

- Non abrasive
- Solvent resistant
- Shred resistant
- Available in packs of 50

P/N: **FCS50**

### PRB Line® Class 10 Anti-Static Vinyl Gloves

These anti-static gloves are designed for electrostatic sensitive components. Used in the medical, aerospace, pharmaceutical, semiconductor and other industries where "ESD SAFE" conditions are a must. The ambidextrous gloves are made from virgin vinyl which has been carefully

compounded to resist a variety of industrial contaminants and irritants. Manufactured and 100% quality controlled and inspected in class 10 clean room conditions in order to protect from particulate contamination.

- Anti-static — <2 sec. static decay — mil-B-31705C
- Powder Free — No foaming/soapy substance
- Superior finger tip sensitivity
- Ambidextrous fit

P/N: **GLM medium**

P/N: **GLL large**

### Brass Brush

- 7.75" long
- Wooden handle
- Ideal for scrubbing PC boards
- Not affected by most chemicals

P/N: **MS78**

### Chamois Swabs

Made from synthetic suede, these swabs are static free, lint free and non abrasive. The bendable handle allows for controlled angled access for hard to reach places. Tested and approved for use with PRB P/N: 833.

- For gentle, effective cleaning of tape heads, data processors, electronics, audio/visual
- Solvent resistant
- Will not snag on VCR heads
- 4" Handle can be bent at any angle
- Available in packs of 10 & 25

P/N: **C/SWABS10**

P/N: **C/SWABS25**

### Precision Syringe Applicator

- Empty syringes can be used for a variety of applications
- Includes a handy cap
- 6cc volume

P/N: **SR5**
